Po!!y® aka Polly Sievert, is an artist whose work is becoming more and more recognized for its ability to calm the temperament of the viewer and bring out one's Gentle Spirit.

Po!!y specializes in blending varied fibers, papers, and discovered objects into works of art, that for many, serve as a prescription for a stressed and harried world. The rich textures in her nature-inspired pieces are an escape from today's world of smartphones, tablets and technology.

Po!!y lives by the wisdom of the Dragonfly, directing her life and guiding her hands to create inspirational pieces that provide a pathway to the inner calm and quiet of one's Gentle Spirit.

Po!!y receives her inspiration from the serenity of both liquid & frozen water, the embrace of nature, and the deep resonating love of her family & friends. What really drives her is the creation of that "aaaaah" moment, as a person finds serenity while appreciating her creations.
